

Web Design:

Basic to Advanced Techniques

Fall 2010

Mondays 7-9pm

200 Sutardja-Dai Hall

Work on Final Projects

Lecture Code: **689940**

Announcements

- By November 22, 2010 (by tonight) @ 11:59PM
 - Name of partners
 - 1 sentence topic
 - 1 paragraph explanation of site and pages
 - 1-2 sentences on how you plan to use PHP
- December 6, 2010 @ 11:59PM
 - .PSD of your website layout with layers intact
- December 13, 2010 @ 11:59PM
 - Fully functional website up at http://users.decal.aw-industries.com/cs198_xx/fp
 - Upload .zip of source code

!important;

You all need to submit some sort of file for each assignment even if your partner is submitting the main files. If you're not turning in the project files, submit a .txt file with both your and your partner's login and a sentence telling us to basically grade on based on the files your partner submitted.

Next Lecture (Last Day of Class)

- Cover special topics
 - By request in the chatroom
- Closing notes / What now?
- Additional help on FP

By End of Class Today

- Get a topic approved for your FP, find your partner
